Redefines Portable AC: 3-in-1 Comfort All Year

Besides the cooling mode, Midea PA has both fan and drying mode, which can meet various needs throughout the year.

Powerful Cooling

Thanks to the 4 ways air intakes design and GMCC compressor tech, cooling efficiency maximize.

Stay Cool with "i sense"

"i sense" function on the remote controller helps to adjust the temperature around you.

LED Display

Equipped with the digital control panel, it is easy to use and allows you to directly view and adjust the temperature and modes of the portable AC.

Quick & Easy Installation

Fits Sliding and Hung windows.

Light and Mobile Design

4 wheels with 360 movement, for easy room-to-room portability.

Easy to Clean: Washable Filters

Removable and washable filters for continuous clean air.

Ionizer

Follow Me

Ionizer

The abundance of anions present at waterfall, rivulet and in forest soothes and refreshes people. Midea air conditioners have taken advantage of Ionizer Technology to bring the refreshing air to your home.

Self-diagnosis and Auto-protection

Once abnormal operation or parts failure happen, the unit will shut off automatically to protect the system. Meanwhile it will indicate protection or error code for fast servicing.

I-Sense Remote Control

The remote control has a temperature sensor built-in to sense its surrounding temperatures. The unit can adjust the room temperature more accurately and provide more tailored comfort cooling.

Sleep Mode

With a precise temperature control system, sleep mode creates an ideally comfortable climate in your bedroom. So you can wake up fully refreshed and take on a new day!

24 Hrs Time

It can allow you to control the switch of the machine at any time within 24 hours without any manual operation.

Silver Ion Filter

The Silver Ions can kill bacteria or prevent their activity at very low density by destroying their inner-configuration and absorbing their elements in cells. The Nano silver attached on the filter releases the silver ions constantly to eliminate bacteria effectively and continuously.

No Bucket Design

Bucket free design brings satisfying cooling power. No draining as the condensate water evaporates automatically.

Shower Cooling System

The advanced water consumption design can make the condensed water of the portable air conditioners vaporize and discharge outdoors. Meanwhile, the air conditioners can bring you more comfortable living environment.
